

A Message from the Director of Public Safety

Wallace Community College Selma works to help maintain public safety and to protect lives and property by providing law enforcement and security functions through the Wallace Community College Selma Campus Police. While providing the campus of WCCS with a full-time police department and striving to educate our inhabitants, we can work together to reduce the chances of becoming a victim of crime and avoid misfortunes. We believe that an informed community is a safe community. Therefore, Campus Police provides an Annual Security Report which includes crime statistics, and summarizes WCCS's policies and procedures. As a department we encourage students, faculty, staff and patrons to take time and familiarize themselves with the Annual Security Report. Campus Police takes pride in providing law enforcement services to the community. We strive to create a safe environment in which anyone can work, study, raise a family and enjoy life. Remember, safety first always and you may contact campus police anytime that our services or assistance is needed.

Best Regards,

Charles J. Dysart II

Chief Charles J. Dysart II
